GÖCEK

Göcek is one of the major yachting centers on the Mediterranean Coast and is the starting and ending point of Blue Voyages.

The gulf of Göcek with more than a thousand coves, is declared a Registered Area of Special Protection.

Once you embark from the marina, you'll notice the islands. Enjoy the deep blue sea in the bays of Göcek with a gulet-type boat. Explore the numerous isolated creeks around those islands and swim in the turquoise water.

Admire the rock tombs of the ancient city Kaunos during our boat tour in the Dalyan river.

Relax in the mud and sulphur bath on Lake Koycegiz. It is known that the mud baths and the thermal waters had been used since the times of the Kaunos people.

Visit the open-air museum of the ancient city Karmylassos. It is a Greek ghost town with stone abandoned houses and churches. There is too much to discover in Göcek.

The most exciting attraction of the Göcek tour is, experiencing the paragliding over the Blue Lagoon. Just ask your guide to organize for you a fly in the blue sky with a skillful coach for about 45 minutes.

There is a sandy bay at the mouth of Blue Lagoon. The beach itself is a pebble beach. The lagoon is a national nature reserve. The area is famous for its paragliding opportunities. It is known as one of the best places in the world to paraglide due to its unique panoramic views and stable weather conditions. Babadağ (Mount Anticragus) has a summit of 1,969 meters.
