## ST PAUL'S TRAIL

St Paul's Trail is one of the top 20 long-distance walking routes in the world. The trail was conceived by Kate Clow, the originator of the Lycian Way, and opened in 2008.

St Paul Trail is the marked route located between Perge, 10 km east of Antalya, and Yalvaç (Antioch-in-Pisidia), northeast of Lake Egirdir.

Best time for this trek: From 10th of March till 10th of June and from 1st of September till 30th of November

In 44 AD, St. Paul walked from Jerusalem to Anatolia to spread Christianity into Europe and all around the Mediterranean.

We will walk through this ancient road passing by ancient cities, rivers, lakes, valleys, canyons and villages.

This ancient hiking path, which is known as the crossway of Christianity, attracts attention in the world with all its virginity.

*Our mission is our guests' satisfaction.*
